

Yousef Omar

Frontend Developer

I am a self-taught passionate software engineer focusing on the Frontend web, love learning modern technologies and forms of digital expression, am highly motivated, and aspiring for an opportunity to prove myself.

EXPERIENCE

Freelance, Upwork - Khamsat - Mostaq1 — Frontend Dev.

JUNE 2022 - NOW

Worked with: React-Next.js-Typescript-Git-Advanced CSS ...etc.

My take was in two directions, first: build good looking efficient websites, web apps, and landing pages, and second: solve other people's problems in technologies I have experience with.

I also worked outside the freelance websites from my network and previous clients.

ITI Intensive 3 month track , Aswan — Frontend Dev.

AUGUST 2021 - DECEMBER 2021

Worked with: React-Angular-React native-Flutter-Jest-Jasmine-Git.

This track expanded my mind from a technical and non-technical point of view and exposed me to experienced developers and an amazing community which I learned a lot from.

Self-study — Web Dev.

JUNE 2021 - AUGUST 2021

A journey of consistent learning and self-discipline.

PROJECTS

Syria Exchange | سوريا للصرافة — Website

Technologies: Next js-SEO-JavaScript-Internationalization-Bootstrap.

My role was to convert the website from React to Next.js to solve SEO, Performance, and social media sharing problems.
